

MIG PIPE WELDING SYSTEM

Delta I System

Delta II System

**Automated Pipe Welding for —
All Pipe Welding Fab Shops**

Mechanical Contractors

Pandjiris has put together a basic package to meet the needs of a variety of applications. The Delta Systems, when integrated with Lincoln's STT/Powerwave technology, combine simplicity and flexibility to bring an economical approach to automatic pipe welding.

Both systems include:

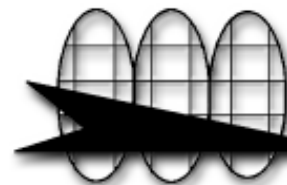

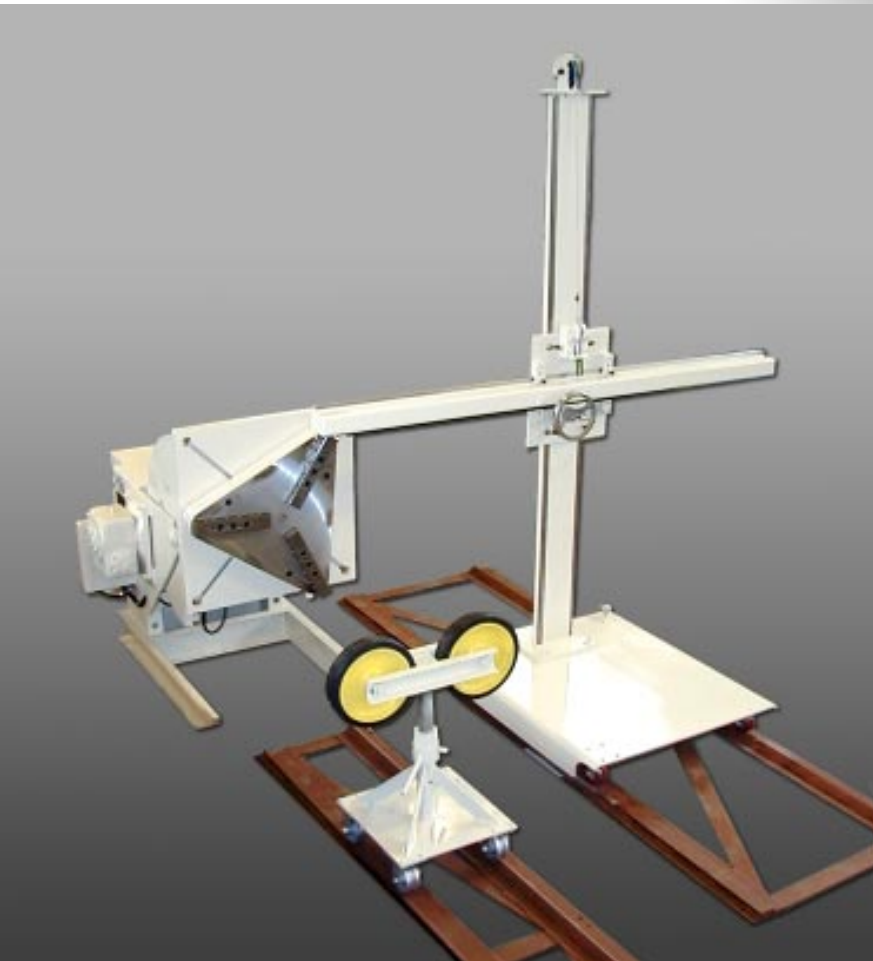

- 6x6 Manipulator mounted on manual push car on "V" track
- Lincoln STT/Powerwave
- Pandjiris Model OS-30 Outboard Support Stand on Casters and "V" Track
- Dovetail slides with mechanical oscillator

The Delta I System also includes:

- Pandjiris Model 30-6 MVRMTAB Positioner
- Model A Gripper
- 600 PT Welding Ground

The Delta II System also includes:

- Pandjiris Model HS-30 Headstock
- Model A Gripper
- 600 PT Welding Ground
